

Internet safety is paramount in today's digital age and we feel it is vital that students are kept safe when using the internet both at school and at home. We have incorporated internet safety into the ICT curriculum in KS 3 and 4.

Pupils in year 7 are asked to sign an internet agreement form which outlines a safety policy when they are using the internet at school.

We are also supported by Merthyr County Council IT team which regulates the use of the internet in schools throughout the borough.

Here are some links on Internet Safety for both parents and pupils
